Ye Town Gossip

(With apologies to K.C.B.)
(By K.C.B. JR.)

Dear K. C. B. JR.:

I am SO pleased to see that you are not running so much tobacco and free pass movie ads. in your valuable column and paper. I am composing some verses on "Richmond in 1920," which I will submit to you for revision, and which you may run under the head of "Ye Town Gossip" and the cute little bear you have coming in the Golden Gate." Lights Safe When Tilted or Deflected

[Special to The Richmond Terminal.]

SACRAMENTO, April 26.—Deflecting the headlights of automobiles downwards so that the main stream of light strikes the road from 50 to 75 feet in front of the car, was demonstrated in a series of tests in Sacramento to be the best. All the various dimming devices were tried out, D. E. Watkins, secretary of the State Automobile Association, deciding that tilting the lights was the only effective method of subduing the headlight glare.

Weekly Summary of World's News

NEWS OF THE WORLD IN A NUTSHELL

Vera Cruz.—The second anniversary of the landing of American troops in Vera Cruz was observed April 21 as a day of mourning.

Paris.—Three more raids by squadrons of French aeroplanes on German positions near the Greek border are reported in a *Havas* dispatch from Saloniki.

Athens.—Premier Skouloudis, who is wealthy, has given \$1,000,000 to the State, this being approximately the sum due the families of the mobilized troops and unpaid on account of an empty treasury.

Bordeaux.—Thirty persons are believed to have been killed in the explosion of the powder branch of a grenade factory here April 22. Already 28 bodies have been taken out of the debris. A number of persons were injured.

Longview, Texas.—Twenty houses were blown from their foundations, many barns were demolished and much live stock killed by a violent windstorm which swept this city and the country between here and Big Sandy late last Sunday.

Mexico City.—Last Sunday was given over to the culminating celebration in honor of the visit of General Venustiano Carranza, first chief of the Constitutionalists, to the City of Mexico. The celebration was the greatest in the capital since the days of the Centennial.

New York.—Henry Ford has purchased an eighty-acre tract of reclaimed meadow land in New Jersey, between this city and Newark, on which he plans to build an automobile factory costing \$5,000,000, according to an announcement here recently.

New York.—Hugo, a circus giant, who is said to be the tallest man in the world, died here last Sunday from pneumonia. He was 8 feet 4 inches high and normally weighed 536 pounds. He was 47 years old, was born in Italy, and was known among circus people only as Hugo.

Washington.—Cleveland officers of the Lake Carriers' Association have notified officials of the government here, it was learned recently, that they have information that Canada intends in future to remove sailors of enemy nations from American ships on the Great Lakes touching at Canadian ports.

Atlantic City, N. J.—Failure of the sun to put in its expected appearance dimmed this resort's annual Easter parade somewhat, so far as the display of gay apparel was concerned, but numerically it surpassed the highest estimates, fully 250,000 visitors tramping the wooden way or doing it in chairs during the day.

Shanghai.—Mutineers in the Kiangyin forts, forestalling the plans of the Government forces, attacked the troops stationed at Wusih, Kiangsu. The fighting continued all night. Trains are being operated only between Shanghai and Soochow, and between Chanchow and Nanking. Trouble is momentarily expected at Soochow.

New York.—Harry K. Thaw April 21 denied reports that he is soon to marry a school teacher. He said he came here to look after his real estate interests. Thaw stated that he has never seen the woman reported as suing him for divorce in St. Louis. He added that he is not the father of little Russell Thaw, as claimed by his divorced wife, Evelyn Nesbit Thaw.

Amsterdam.—The *Lokal Anzeiger* of Berlin published recently an interview with Dr. Von Lenzte, Prussian finance minister, in which he forecasts great financial difficulties, not only for the German empire, but for the individual states of the empire. He thinks it may be necessary to levy direct taxes upon the states. The prolongation of the war, Dr. Von Lenzte contends, compels recognition of hard facts.

London.—The recent attack of the Turks on the British forces along the Tigris in Mesopotamia, was made by 10,000 men, and cost them heavy losses. An official account of the battle, supplementing earlier reports from the British commander, was given out recently. "Within 500 yards of the front of one of our brigades alone 1,200 to 1,500 dead Turks were counted," says the statement. "Their killed alone on the night of April 17-18 are estimated at more than 3,000. In several instances attacks were led by Germans."

Apartment Life.

"That lady next door seems rather uppish."

"She can save her airs. I am just as anxious not to get acquainted with her as she is not to know me."

OFFICIAL STATEMENTS FROM THE EUROPEAN WAR ZONE

GERMAN.

Berlin, April 23.—The German official statement follows:

"Western theater: We were compelled to evacuate our newly won trenches on the Langemarck-Ypres road on account of high floods, which made their consolidation impossible.

"An English hand grenade attack, made toward morning south of St. Eloi, was repulsed. English patrols, which advanced in the night against our lines on both sides of the Bapaume-Albert high road, after preparation by strong artillery fire, were repulsed.

"Near Tracy-le-Val an enemy gas attack was unsuccessful.

"Clouds of gas were swept back in the direction of the French.

"On the left bank of the Meuse, southeast of Haucourt and west of Dead Man's Hill, we have taken enemy trenches. On the right bank of the river in the Woerpe plain and on the heights near Combres, fighting activity was limited to very lively artillery engagements.

"Eastern theater: South of Narocca lake an attack by a Russian battalion broke down before our obstructions. The enemy suffered heavily. Elsewhere, with the exception of local outbursts by artillery and some patrol encounters, there is nothing to report.

FRENCH.

Paris, April 23.—The following official communication was issued to-night:

"South of the Somme, our artillery carried its concentrated fires on the German trenches in the neighborhood of Fransart and Hattencourt, south of Chaulnes.

"West of the Meuse, there was a somewhat violent bombardment against Hill No. 304.

"East of the Meuse and in the Woerpe, there were artillery gouts this afternoon."

**PERSHING WARNED
TO HALT INVASION**

Told to Stay North of Parral; Plan of Pursuit Will Probably Be Changed Soon

Washington.—President Wilson and the Cabinet discussed the Mexican situation April 21, but did not decide on any course of action. Further steps by the United States toward the pursuit of Villa or withdrawal of the troops from Mexico will await a full report from Major-General Scott, Chief of Staff of the Army, as to conditions on the border and in Mexico.

General Scott, reached San Antonio, Tex., April 21, to confer with General Funston. His full report, upon which a decision as to the next step to be taken, probably will not be made until his return to Washington. When he left here, the chief of staff said he would make his investigation and return as quickly as possible. He could not indicate how long he might be gone.

Pending word from General Scott, Secretary Baker reiterated his statement that no change had been made in the orders to General Funston and that the department had no knowledge of any change in the latter's orders to General Pershing. No official report had been received, he said, that the expedition was at a standstill.

The Secretary admitted that official dispatches had carried as a rumor the report that Mexican officers had warned General Pershing not to proceed south of Parral. It was learned at the State Department that a report to this effect was transmitted some days before the Parral incident through consular agents. Baker insisted that the warning had made no change in the department's orders to the border forces.

It was indicated tonight that a reply to General Carranza's telegram calling attention to the clash at Parral and asserting that the American commander had violated his orders and the agreement with the de facto government in entering the town would be dispatched soon.

War Department officials say the report on the incident from General Pershing, Major Tompkins and other officers is not complete. It has been withheld from publication because of the flat contradiction it contains of the Mexico City advices from General Carranza as to the part his troops played in the fighting.

With this report as a basis, the Parral incident will be treated as a matter entirely separate from the suggestion of the de facto government that the troops be withdrawn.

but no infantry action occurred during the course of the day.

"In Lorraine, we vigorously shelled the enemy works in the sector of Leintrey. No event of importance occurred on the rest of the front.

"Thirty German divisions have appeared on the Verdun front up to April 22. It is to be remarked that the German command seeks to carry on the action with the least troops possible, but keeps them at the front until they are completely used. As fast as losses are sustained the German command re-forms the units by means of reinforcements and brings them back to the attack when they are scarcely reconstituted.

"It is thus that certain divisions have reappeared on this front as often as three, and even four, times." The Belgian official communication reads:

"The activity of the opposing artillery forces was resumed with vigor today, particularly in the whole sector between Nieuport and Dixmude. German transport by railroad was effectively taken under our fire near the village of Beerst."

BRITISH.

London, April 23.—The following official communication was issued to-night:

"Last night we made a successful raid against the enemy's trenches southwest of Thiepval. Thirteen prisoners were captured and a number of casualties were inflicted on the enemy by our men bombing their dugouts. Our casualties were very slight.

"Mining activity continues in the Hohenzollern sector. Today there were artillery actions about Hebuterne, Neuville-St. Vaast, Souchez, and Carenny and about the Ypres-Comines canal.

"Our artillery dispersed an enemy working party in front of St. Eloi this afternoon."

**U. S. NAVY GUNNERS
SET A NEW RECORD**

Atlantic Fleet Batters All Former Marks for Long-Distance Target Shooting With Big Guns

New York.—Uncle Sam's gunners have set a new record in American naval marksmanship, it was learned April 21 at the New York Navy Yard.

The Atlantic fleet, which was recently engaged in battle maneuvers at Guantanamo, bettered all former marks for distance in long-range target practice with the twelve and fourteen inch guns by more than 50 per cent.

Former long-range target practice has usually been limited to 12,000 yards, with most of it at 8,000 yards with reduced loads.

At the recent maneuver the targets were put from 17,000 to 19,000 yards away.

The incentive for the longer ranges came from reports of various naval battles of the present war, particularly that of about a year ago, when German warships were attacked by a British fleet in a dash from Kiel into the North sea.

Porterville.—Orders have been issued for a new extension of the Porterville Northeastern Railroad south from Success station to the newly opened magnesite mines and material is already being assembled. Last year the same company built a branch to the properties of the Tulare Mining Company, also operating in magnesite, at Magnesite station. At the present time an average of fifty carloads of magnesite are being consigned weekly from Porterville to Eastern points.

Los Angeles.—Four masked men entered a Japanese lodging-house early April 21, bound and gagged ten men and one woman, all Japanese, and escaped with between \$300 and \$400, according to the stories the Japanese told the police. One of the victims, tied to a chair, freed himself about daylight, released the others and called the police. All the victims were seized while asleep. The woman and several of the men were tied to their beds and the others to chairs.

Wanted to Put Clothes on Chickens,
Pair Turnips Two and Two and Wash Celery With Soap.

She was a young wife, just married, from boarding school, and, although educated regardless of expense, didn't know beans from any other vegetable. Hence this dialogue with the cook:

"Now, Biddy, what are we to have for dinner?"

"There's two chickens to dress, mom."

"I'll dress them the first time. Where are their clothes?"

"Why mom, they're in their feathers yet."

"Oh, then, serve them that way. The ancient Romans always cooked their peacocks with their feathers on. It will be a surprise to hubby."

"It will, that's true. Shure, if you want to help, you could be parin' the turnips."

"Oh, how sweet! I'll pair them two and two in no time. Why, I had no idea cooking was so picturesque."

"I think, mom, that washin' the clothes do more in your line."

"All right, Biddy. I'll take it up to the bathroom, and I've some lovely Paris soap that will take off every

REPUBLICAN PARTY

Take this to the polls
Is Issue in
California

For the success of the
Republican Party in
California at the pres-
ent primary election
we will vote for the
candidates nomi-
nated at the locally
called Regular Repub-
lican Convention held
at the Palace Hotel
in San Francisco, March
17, 1916.

The convention was
attended by 500 in per-
son and 300 by proxy
and was composed of
members of the
State Central Commit-
tee and the various
County Central Com-
mittees throughout the
state, being the
legally elected
representatives of the party.

This convention named 26 plain, ordinary, representative Repub-
licans, not classified
old-line Republicans, not classified
admirable Republicans, but Republicans whose
names guarantee that
they can be relied upon
to do their full duty
toward all Republicans
and insure harmony in
the party and victory
over Democratic watchful waiting and misrule.

Opposed to the Regular Republican ticket is the Johnson-Earl "hydro-
electric" hand-picked clique selected at the St. Francis Hotel, February 26th,
by some 600 "invited" guests of Earl, representing only the Earl interests,
but now misqueraded as "United" Republicans whose admitted purpose is
of disarray.

All good citizens should register their protest against the present
quibus primary law permitting the evils of colonization and elimination
of parties.

The Regular Republicans stand for an honest primary law and for the
reservation of the parties against all those who now seek to destroy them.

The Fallacy of Paraffine Base: Eastern oil manufacturers have long extolled the superior virtues of paraffine-base motor oils. But Pacific Coast motorists have proved that Zerolene, made from selected California crude, asphalt-base, gave best results. Their experience is now supported by the testimony of international experts. Lieut. Bryan stated before the Am. Soc. of Naval Engineers: "Oils made from the asphalt-base crudes have shown themselves better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils." Zerolene received highest competitive awards, San Francisco and San Diego Expositions. Dealers everywhere and at service stations and agencies of the Standard Oil Company.

A NEW SPIRIT IN POLITICS NEEDED

As outlined by the committee
who will have in charge the writing
of the platform and resolutions of
the National Republican Convention
it is said the keynote of the
campaign will be patriotism, real
Americanism, such preparedness as
that this country may defend itself
against the world. Within the past
two years there have been made
hundreds of new millionaires.
Wealth has flowed into this country
as at no other time in all history.
To such an extent has this
country worshipped at the shrine of
the golden calf that the world has
marvelled.

It is proposed to infuse a new
spirit into our politics and into our
national policy, such a spirit as
was suggested to the political clubs
of Washington, D. C., December
10, 1864, by Abraham Lincoln
when in his speech there he said:

"Gold is good in its place, but
living, brave, patriotic men are
better than gold."

"Ye have the poor always with
you," and unless the official Federal
Bulletin can make a better showing
than this year, ye always will.
One-fourth of thirty million
workers in the chief industries re-
ceive less than \$10 per week, and
only one in ten \$20 per week.
More than two-thirds of the women
in the laundries, factories and
stores receive less than \$8, and
about one-fifth of them less than
\$4 a week. Many a young Ameri-
can girl might with due propriety
address the Maker of the Universe
as did another 3000 years ago:
"Remove far from me vanity—lest
I be poor and steal."

"Japan steadily pursues her
preparations for war upon us,"
says one of America's leading dailies.
In this same connection reference
is made to "old ladies in
trousers," who swallow Japanese
explanations as easily and greedily
as a chick robin gulps down a fat
worm." As compared with a meal
on a fat worm, indulged in by
these peace advocates, William
Jennings Bryan realizes from gate
receipts at one of his peace-talks
enough to buy a whole carload of
fat worms.

The Pacific Gas and Electric Co.
is to be commended for the adop-
tion of a pension system which pro-
vides for disabled and those in-
capacitated by the infirmities of
old age who may be in the service
of the company for a stated num-
ber of years. This does not bear
out the fallacy that capital and
labor are "mad at each other." It
looks like co-operation for the
mutual benefit and welfare of all.

President Roosevelt and Presi-
dent Wilson ate humble pie from
the armed hand of Japan," and it
is rumored that General Iturbide
is on his way to Japan to invite the
Emperor of the Japanese Empire
to come to Mexico to put his finger
in the bandit-pie now being cooked
up by him who is recognized as
The First Chief, and sometimes
dubbed as President of Mexico.

Judge Walter Bordwell waxes
warm. He says "Governor John-
son denounced the republican party
and declared it unfit to live." Beg
to suggest to Walter that he need
not get so mad about it. The
republican party is not dead; the
party still lives—even the Governor
admits it.

It being presidential year, the
"war nuts" are working strong on
the fighting proclivities of an aggressive
"candidate." "And it's a long
way to—November."

Villa was in Richmond a few
days this week. He was looking
over some good buys in real estate.
This was not the Mexico Villa (in)

It is a fact that the circus clown

The press agent says that he finds

clowns of the John Robinson's Ten
Big Shows and that he finds that
two of them are taking correspond-
ence school courses in mechanical
engineering; one is an omnivorous
reader of classic literature; another

concertos in a highly creditable
manner; two are splendidly versed in
the history of the world, from
the day of our Arvan ancestors to
the current events of the European
war; one is a lawyer who is travel-
ing for his health; one is a clever
